Integrated Solution

Connect all your data in one unified system of record

Bilflo was designed with open APIs to connect with applicant tracking systems, payroll providers, and accounting software, eliminating the need to manually enter data in multiple places. Your best tools and processes work together seamlessly.

Time Keeping Management

Say Goodbye to manual timesheets and timecards

Bilflo helps you stay compliant. With our built-in timekeeping feature, manage pay rates, burdens, expenses, and overtime rules for all 50 states. In addition, other timekeeping systems can be directly uploaded into Bilflo making the process seamless and reducing redundant work.

Invoice Delivery

Consolidated vs individual invoicing and anything in between.

Automatically generate client invoices, attached with detailed timecards and supporting documents. Invoices can be delivered electronically with a click of a button to both your clients and accounting software.

Business Intelligence

In the cloud and readily accessible whenever you want it.

Bilflo consolidates and tracks sales & recruiting activity, time & rates from various systems and unifies sales and gross profit Business Intelligence for individuals, team performance, and the overall organizational health.
